Lippert is a leading, global manufacturer and supplier of highly engineered products and customized solutions dedicated to shaping, growing, and bettering the RV, marine, automotive, commercial vehicle, and building products industries. We combine our strategic manufacturing capabilities with the power of our winning team culture to deliver unrivaled customer service, award-winning innovation, and premium products to every industry and person we serve.

# BUSINESS AS A FORCE FOR GOOD

## OUR VISION: TO BE A FORCE FOR GOOD IN THE WORLD

Since 2016, Lippert has focused on designing a cultural foundation from which our success is based, and it stems from one simple driving force: At Lippert, Everyone Matters. From the shop floor to the C-suite, we simply care about people. Our culture is grounded in our five core values that we practice in our business every day.

## OVER EIGHT YEARS OF IMPACT

**2,000+**  
non-profits served

**1,000,000+**  
volunteer hours

**\$2,000,000+**  
annually donated to charity

# ROOTED IN TRADES

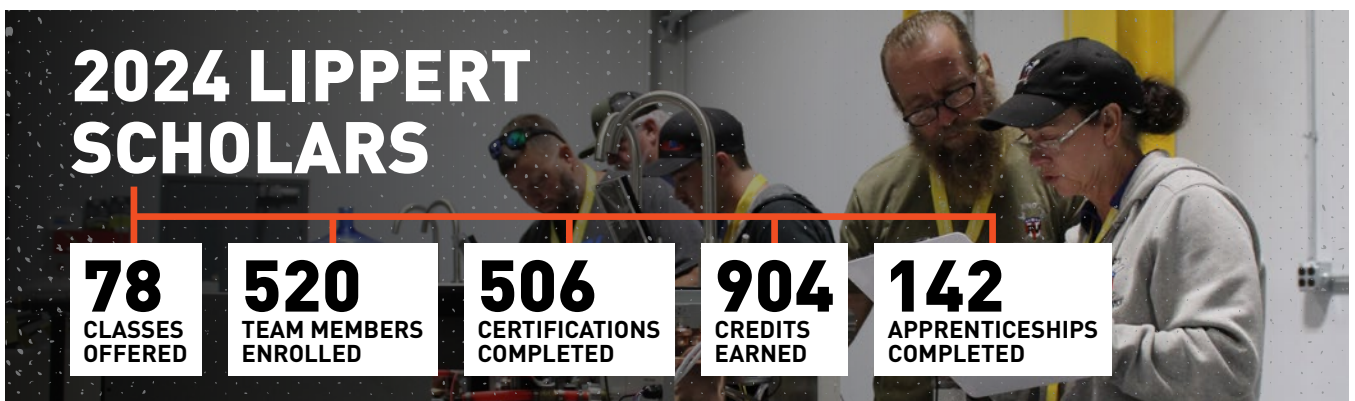

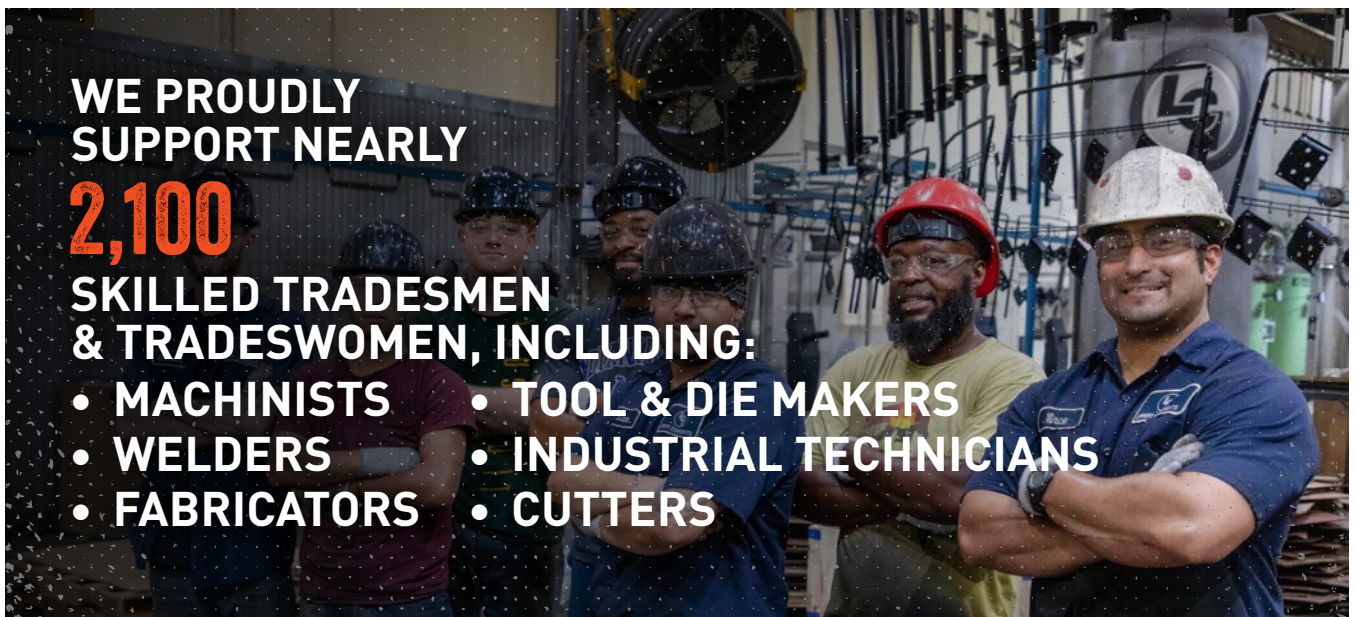

At Lippert, we know **skilled trades** are the backbone of our industry. Welders, fabricators, machinists, and mechanics keep everything moving.

**But today, we face a skills gap crisis.** More tradespeople are leaving than entering the field, and the gap continues to grow. Without them, manufacturers can't build, dealers can't serve, and consumers can't get what they need.

# HOW WE ARE BRIDGING THE GAP

---

**FLEET-APPROVED COMFORT AND SAFETY**

# GRIP STEP™ RUNNING BOARDS EXPANDED METAL TREADS

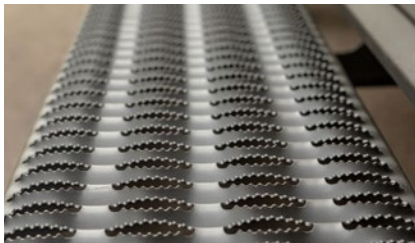

Grip Step™ running boards are ideal for work trucks and commercial vans. The powder coated finish is weather-resistant and the unique, expanded metal treads offer exceptional traction in wet, muddy, or icy weather. Grip Steps are also available in XL, SlimGrip™, rear step, and hitch step configurations.

## Exceptional traction

Unlike plastic, the expanded metal treads provide maximum traction and safety on the job, regardless of weather conditions.

## Wide and stable

The broad width offers a reliable platform that provides confident footing for delivery drivers when working in poor weather conditions.

## Open treads

Dirt and debris are knocked off boots and pass through the open treads, providing traction while helping to keep the vehicle interior clean.
